

## Day5-Daily-Task

YUVARAJ KUMAR S

11-08-2025

Use db first approach in entity framework and list the trees/products in the homepage.

Package Manger Console command:

Scaffold-DbContext "Data Source=PTPLL444\SQLDEV; Initial Catalog=vishnunDB; Integrated

Security=True; TrustServerCertificate=True;" Microsoft.EntityFrameworkCore.SqlServer

-OutputDir Models -ContextDir Data -Force

### Output:

WebApp\_DBFirst [Home](#) [Privacy](#)

Products Table

| ProductId | Name                 | Price  |
|-----------|----------------------|--------|
| 1         | laptop               | 50000  |
| 3         | LED Desk Lamp        | 94     |
| 4         | Smartwatch           | 25000  |
| 5         | Gaming Keyboard      | 2300   |
| 6         | Bluetooth Headphones | 3500   |
| 7         | Wireless Mouse       | 799    |
| 9         | iPhone 20 Pro        | 450000 |
